

GOVERNMENT & POLITICS – B.A and INTERNATIONAL RELATIONS – B.A

Updated 6/24/25

Quantitative Skills Courses – B.A Track

GVPT B.A students must fulfill the Quantitative Skills requirement with one course from the list below and *may* fulfill the Additional Skills requirement with a second course from the list below.

IR B.A students must fulfill the Quantitative Skills requirement with one course from the list below.

Students may NOT use their math benchmark course to fulfill any of the skills requirements. GVPT courses used to satisfy a skills requirement may NOT also fulfill other major requirements, like courses of choice.

Many of these courses have prerequisites and other restrictions. It is the student's responsibility to proactively review course descriptions to confirm courses they register for are not duplicates of courses they have already completed.
