## DATA SETS

---

### Victorious Insurgent Governance Organization Underwriting Regimes (VIGOUR)

This dataset captures the extent of wartime governance practiced by all rebel victors in civil wars, 1945-2014. Drawing on rebel biographies, conflict and armed group histories, archival sources, interview data and declassified intelligence, it captures data on victorious rebels' wartime social service provision, disciplinary regimens, and mass civic organization. This data set is in progress and is not yet publicly available.

### Leaders in Exile & Acts of Destabilization (LEAD)

This project assembles cross-national leader-year data on all exiled leaders and destabilization episodes globally from 1945-2010. It captures a range of actions taken by exiled leaders attempting to destabilize their home countries and retake power, including organizing coup plots, mobilizing insurgency and rallying international support for restoration. This data set is in progress and is not yet publicly available.
